VIDEOPHONE RANGE

Your customers will now know who is calling, before they open the gate or the front door of the house

Among the leaders on the residential access market, Somfy has added to its range of access security systems with the latest generation of videophones.

Security as well as convenience

- > No need to get up to find out who is at the door or to open the gate.
- > The monitor screen indoors displays every visitor, even at night.
- > Excellent image quality.

A complete system

EXCLUSIVE TO SOMFY

- > **The videophone range is part of Somfy's Home Motion world**
Built-in Telis 4 RTS radio remote control for up to 5 RTS devices in the home: gate, garage door, outdoor lighting, roller shutters, for instance. Practical!
- > **It's easy to install the videophone range**
Connected with just two cables (optional use of existing electrical connection on gate or entrance door). No coaxial cable to carry images.
- > **The videophone range provides user convenience**
Second monitor may be connected to the system, in the kitchen or living room, for instance.
